To Whom it May Concern:

The purpose of this letter is to serve as a recommendation for Rob Skow of Z Best Turf. We decided artificial grass would best suit our need for low maintenance, yet attractive landscaping. After much research, it was apparent not all artificial turf was equal and the initial investment would be substantial. Two co-workers suggested we contact Rob Skow.

In hiring Z Best Turf, you will have a multitude of product choices to suit your tastes, receive an unwavering bid for the project, and can expect Mr. Skow to do as he says. His crews are quick, efficient, and handled the challenges of our particular project with ease. Additionally, you will find the cost of your project (material and installation) compares to what others charge for the grass alone.

We are very pleased with the transformation of our front yard and have received numerous compliments from our neighbors. Z Best Turf exceeded our expectations and we highly recommend them to anyone considering artificial grass.

Sincerely,

Jeff Brown
